## Your #1 Rating Leak: Missed Opportunities

Deterministic analysis (Stockfish + fixed heuristics). No invented insights.

### Why this keeps happening

You missed the chance to penetrate to the opponent's second rank with your rook.

### One number to watch

You converted your advantage in 81% of games where you achieved a significant advantage.

### Where things first went wrong

Game 11, move 8 (White): Bd3.

This is the first time your move caused a large evaluation drop in the opening (per your report rules).

### Your most damaging patterns

#### 1. Rook Activation - Missed 7th Rank (O)

You missed the chance to penetrate to the opponent's second rank with your rook.

#### 2. Battery - Missed Formation (O)

You missed the opportunity to form a rook or queen battery along an open file or rank.

#### 3. Rook Activation - Passive Rook (D)

Your rook sat on a closed or blocked file throughout the game, contributing nothing.
