Your #1 Rating Leak: Endgame

Deterministic analysis (Stockfish + fixed heuristics). No invented insights.

Why this keeps happening

In an equal endgame you lost without a clear tactical capture or forced mate sequence.

Do you win the games you should win?

You converted your advantage in 76% of games where you achieved a significant advantage.

Where things first went wrong

Game 2, move 2 (White): Nc3.

This is the first time your move caused a large evaluation drop in the opening (per your report rules).

Your most damaging patterns

1. Endgame Technique Failure

In an equal endgame you lost without a clear tactical capture or forced mate sequence.

2. Opening Preparation Gaps

You fell behind early: an opening move caused a big drop before move 8.
